PERSONAL PROJECTS

Covid-19 live updates(India)
- It's an Android app that provides accurate statistics on Covid-19 cases. And I'm using Google Volley. Volley is an HTTP library that makes networking for Android apps easier and, more importantly, faster. API is available to all t api.covid19india.org.

My Portfolio
- HTML, CSS, JavaScript, bootstrap, and node.js were the technologies I used in this project. The website address is https://radiant-harbor-31762.herokuapp.com/

Fake Mail
- It sends a fake email to a recipient. Node.js, CSS, HTML, and Javascript are the technologies used. The nodemailer-mailgun API is what I use. https://fake-mail-by-abhijith.herokuapp.com/
